

Simple and Easy Mass Email Solution for Salesforce CRM

MassMailer is **Native Mass Email Solution** for Salesforce CRM that lets you send **Unlimited Emails** to **Leads, Contacts, Campaign Members, Opportunity Contact Roles** and more.

Salesforce is the best CRM, but when it comes to mass emailing it has **limitations**.

- 5000 Daily [email limits](#)
- Limited Statistics and Email Events such as [Opens](#), [Clicks](#), [Spam](#) etc.,
- Limited Email Attachment Size
- Emails going to [Spam & Email Deliverability Issues](#)
- No Dedicated IP
- No Email [Address Verification](#)
- No [Tracking of Email Alerts](#) through Workflows
- No Mass Email feature to [Opportunity Contact Roles](#)
- No [Mass Stay In Touch](#) feature

How to Send Above the Salesforce Email Limit

Salesforce is the best CRM, but when it comes to mass emailing it has **limitations**.

- No **One Off Email Scheduling** Feature
- No **Subscription Group or Distribution List** Feature
- No **Multiple Domain** Support
- No Flexibility on the **Sender Email**
- No support for **Large Email Volume** users
- **Limitation** on the number of records per **List View**
- **Limitation** on the number of records **per Report**
- No HTML Email Template Builder
- No **Drip Campaign** Feature

MassMailer overcomes all Salesforce Email Limitations and offers more.

- MassMailer is a [100% Native Salesforce](#) App so that you can send emails to your existing database of leads and contacts
- Salesforce [native APIs](#) allows you to extend the functionality of MassMailer to better support your unique business needs and requirements
- Customizable to support your unique business requirements with developer APIs
- Higher Delivery via [Dedicated IP](#) Address and [Email Authentication](#)
- Leverage [Salesforce Native Email Templates](#)
- More accurate [Email Statistics and Email Events](#)
- Ability to [send from different Email addresses and Domains](#)

Add-On features enhance **MassMailer** Value.

- **MassMailer Email Verifier** allows you to minimize bounces and maintain a good IP and Email reputation. Emails can be verified individually at the lead or contact level or in bulk. Email Verification Status gets logged at the lead or contact level.
- **MassMailer DOCS** make it easy to manage and send File Attachments (both small and large). Files can be stored at the object level or in a shared storage area. Multiple files can be attached in a single email.
- **MassMailer Prospector** allows you to find leads from LinkedIn and append additional information like email address and phone numbers to quickly build up your leads database. MassMailer Contact Database is refreshed every quarter with 5 Million US based contacts.
- **MassMailer Data Services** allow you to manually correct bad data or append new information to your contact database.
